

Ex. No.: 8

Query with Sub Query& Correlated Query

1)

```
mysql> SELECT StudentName, Score
-> FROM StudentMarks
-> WHERE Score >
-> (
-> SELECT AVG(Score)
-> FROM StudentMarks
-> );
```

StudentName	Score
Rahul	75
Rahul	82
Priya	88
Anu	90
Meena	79
Rahul	75
Rahul	82
Priya	88
Anu	90
Meena	79

0 rows in set (0.051 sec)

2)

```
mysql> SELECT StudentName,
-> COUNT(*) AS TotalTests
-> FROM StudentMarks
-> GROUP BY StudentName
-> HAVING COUNT(*) > 1;
```

StudentName	TotalTests
Rahul	4
Priya	4
Arun	4
Anu	2
Kiran	2
Ram	2
Meena	2

3)

```
mysql> SELECT Name, DOJ
-> FROM Faculty
-> WHERE DOJ = (
->     SELECT MAX(DOJ)
->     FROM Faculty
-> );
```

```
+-----+-----+
| Name  | DOJ      |
+-----+-----+
| Anitha | 2016-08-15 |
+-----+-----+
1 row in set (0.008 sec)
```

4)

```
mysql> SELECT CourseNo, StudentName, Score
-> FROM StudentMarks S1
-> WHERE Score >
-> (
->     SELECT AVG(Score)
->     FROM StudentMarks S2
->     WHERE S1.CourseNo = S2.CourseNo
-> );
```

```
+-----+-----+-----+
| CourseNo | StudentName | Score |
+-----+-----+-----+
| C001     | Rahul       | 75    |
| C002     | Rahul       | 82    |
| C003     | Priya       | 88    |
| C002     | Arun        | 72    |
| C002     | Meena       | 79    |
| C001     | Rahul       | 75    |
| C002     | Rahul       | 82    |
| C003     | Priya       | 88    |
| C002     | Arun        | 72    |
| C002     | Meena       | 79    |
+-----+-----+-----+
10 rows in set (0.011 sec)
